Dear Sir:

Pursuant to 37 C.F.R. § 1.97 and § 1.98, applicants submit for consideration in the above-identified application the preliminary amendments listed on the attached Form PTO-1449.

Copies of the preliminary amendments are also submitted herewith. Form PTO-1449 also includes one other related application to the present. The Examiner is requested to make these documents of record. Applicants would appreciate the Examiner initialing and returning the Form PTO-1449, indicating that the information has been considered and made of record herein.

The attached preliminary amendments pertain to several related published applications that were submitted for consideration in the Information Disclosure Statement ("IDS") dated September 15, 2003. These preliminary amendments are submitted herewith because after submitting the IDS dated September 15, 2003, Applicants noted that the published applications did not reflect the particular claim sets and summaries of these applications. Specifically, these related applications are continuations of prior applications. Applicants filed these continuations by filing the parent applications specification along with preliminary amendments that canceled the parent applications' claim sets, added new claims, and replaced several sections (e.g., summary, title, etc.) of the parent applications' specifications. However, when the Office published these applications, the Office did not replace the claims and relevant sections of the parent applications, and simply published the parent applications' specification.

Accordingly, in this IDS, Applicants are submitting the preliminary amendments of several incorrectly published applications that were submitted with the IDS dated September 15, 2003. On each submitted preliminary amendment, Applicants have written the serial number of the application, in order to identify the published application related to the preliminary amendment.

This Information Disclosure Statement is submitted within three months of the application filing date or before the mailing date of a first Office Action on the merits; accordingly, no fee or separate requirements are required.

This Information Disclosure Statement under 37 C.F.R. § 1.97 is not to be construed as a representation that: (i) a complete search has been made; (ii) additional information material to the examination of this application does not exist; (iii) the information, protocols, results and the like reported by third parties are accurate or enabling; or (iv) the above information constitutes prior art to the subject invention.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Assistant Commissioner to

charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 50-1128** referencing SPLX.P0023. However, the Assistant Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Dated: September 26, 2003

Respectfully submitted,

By: \_\_\_\_\_
